THE PLACE—

Masonic Temple.

That La Crosse women are interested in the science of cookery was demonstrated yesterday afternoon by the immense crowd which packed the large basement room in the Masonic temple where The Tribune is conducting its Paper Bag Cookery School.

Interested women express interest; every one of the approximately five hundred chairs in that large room was occupied, in addition to which a large number of ladies were obliged to stand during the two hours of the cooking demonstration, while others came and seeing the utter impossibility of getting within seeing or hearing distance of the cooking platform turned disappointedly away. Arrangements have been made to take care of a larger number of visitors today and for the remaining days of the cooking school and Mrs. Marshment has kindly consented to hold special evening sessions tonight and Friday night in addition to the regular afternoon classes. In this way The Tribune hopes to be able to accommodate every woman in La Crosse and vicinity who cares to attend and be initiated in the mysteries of the new cooking science.

Mrs. Marshment is clever; she has the happy faculty of talking interestingly and cooking at the same time and her pleasing personality and readiness to answer any question asked of her won a place for her in the hearts of many La Crosse women who attended yesterday and expressed their intention of coming every afternoon and evening, while The Tribune's cooking school continues.

Paper bag cookery is making a hit in this city, as it has in others where Mrs. Marshment has held her demonstrations and there will be many followers of the new cooking method and enthusiastic users of Union Cookery bags after these demonstrations are brought to an end in La Crosse. Actual fuel and food savers as well as making the food more delicious and savory and retaining all the natural flavors and juices of the foods cooked, cookery bags are a genuine boon to the busy housewife and now that the women are being taught the correct way of using them there seems no question of their popularity.

The cooking school will positively close Saturday afternoon, and tonight and tomorrow afternoon and evening and Saturday afternoon will be the last opportunities for the women of this city to learn at first hand all about how to cook in paper bags from an expert who has spent a great deal of time in experimenting with the new cooking science.

Yuan Drug Victim; May Restore Emperor

NANKIN, March 28.—The continued illness of President Yuan which his doctors have stated was due to the use of drugs, today menaced the existence of the Chinese republic. Another uprising on behalf of the Manchurian prince is imminent. Foreigners in the capital believe that it will be in connection with the admitted plot to restore the child emperor to the throne. Confidential reports received at the foreign legations say that Manchus everywhere are arming. So certain are the foreign officials that a serious outbreak is coming that they have not relaxed a single precaution. Although the city is quiet, the legation guards are on continual duty. Rapid fire guns are still in position, commanding the approaches to the several compounds.

COUNCIL HIRES EXPERT ENGINEER

John W. Alvord to Investigate Underground Water Supplies and Water Plant Plans

MAN OF GOOD REPUTATION

Aldermen See Solution of Whole Difficulty in New Plan; Harmony Prevails

John W. Alvord of the firm of Alvord & Burdick, Chicago, the much heralded "engineer of national reputation," appeared before the common council at a special meeting last night and presented his proposal in regard to the investigation of the underground water supply which will be made before plans and specifications are finally decided upon for the proposed water plant.

According to Mr. Alvord's proposition he will make a thorough investigation of the source of water supply in the strata of gravel under the swamp, where it is proposed to dig the wells, with a view to the future water supply of the city. He will investigate the feasibility of the plan which considers utilization of both systems and will outline plans whereby whichever plan is adopted can be carried out. His detailed report on underground water supply and pumping plants will include all the data that an expert engineer is able to collect and put on record. The report is expected to be of great value for future information in regard to water supplies as well as in the present difficulty.

Proposal is Accepted
Mr. Alvord expects that it will require five or six weeks to prepare his report and submit it to the council. As compensation for his investigation and report he is to receive \$1,200. The council was unanimous in its vote to accept Mr. Alvord's proposal at the price stated.

Shortly after the council convened the special water committee presented a report which recommended the hiring of an expert engineer to make such investigation as Mr. Alvord proposed to do. The report outlined the difficulties encountered by the water committee in attempting to solve the water plant problem and offered the expert engineer plan as a solution.

Executive Session
After a short argument Alderman P. W. Mahoney made the motion that the council go into executive session to take up the matter of hiring an engineer. The motion was carried, five aldermen voting "no." The executive session, to which only members of the board of public works and the city engineer were admitted, lasted an hour.

When the council resolved into open meeting, it was moved to adopt the special water committee's report and accept Mr. Alvord's proposition. The motion prevailed unanimously.

Alderman Ed Neuman presented a resolution which stated that in view of the fact that Attorney A. C. Wolfe, one of the attorneys for Engineer A. T. Maltby, had rendered an opinion that the action of the council in usurping the powers of the board of public works in the establishment of a water plant is illegal, the council should refuse to pay the \$1,000 due to Mr. Maltby for his services as an employee of the council. The resolution was referred to the committee on judiciary.

Spirit of Harmony
A remarkable spirit of harmony, which has been conspicuous for its absence among some of the different members of the council in regard to the water question for the last six months, was noticeable among the aldermen after adjournment. What stood in groups discussing what some of them termed the solution of the whole tangle in the hiring of Mr. Alvord.

Mr. Alvord bears the reputation of one of the best engineers in the United States and the firm in which

UNCLE IKE IS KEPT IN SENATE

By Vote of 40 to 34 Senate Declares Stephenson was Honestly Elected to His Seat

ELECTION LONG IN DOUBT

Ultimate Result in Balance Up to Last Minute; Fight to Unseat Ike Is Hot

WASHINGTON, March 28.—The senate, by a vote of 40 to 34, Wednesday night, approved the majority report of the committee on privileges and elections, exonerating Senator Stephenson of all charges of bribery and corruption in his election to that body.

Sixteen republicans and eight democrats voted against Senator Stephenson. Twelve democrats and twenty-eight republicans voted for him. Up to the last moment the attitude of the senate remained in doubt. Both sides worked strenuously throughout the afternoon gathering all their forces and at times the anti-Stephenson senators claimed to have a majority. Even Senator La Follette, who has not been in the chamber since the delivery of his Philadelphia speech several weeks ago, came in at the last moment to cast his vote against his colleagues.

Long Speeches Made
When, after seven and one-half hours of speech making, the roll was called and the jaded senators, after a three days' siege, responded to their names, the senators on the floor and the crowds in the galleries all leaned forward in a breathless silence to watch the progress of the final fight. All during the progress of roll call votes in direct opposition to the Heyburn motion tied votes upon which success of the Stephenson fight depended three times. Toward the end, however, the Stephenson forces forged ahead, scattering the votes of senators arriving after roll call was begun by a majority of 6.

The Vote
The final ballot was: For Stephenson—Bradley, Brandegee, Briggs, Burnham, Burton, Clark of Wyoming, Crane, Curtis, Dillingham, Dupont, Gambia, Heyburn, Lippett, Lodge, Lorimer, McCumber, McLean, Nixon, Oliver, Page, Penrose, Perkins, Richardson, Root, Smoot, Sutherland, Warren and Wetmore, republicans; Bankhead, Chilton, Fletcher, Foster, Johnston, Newlands, Overman, Pomerene, Raynor, Smith of Maryland, Watson and Thornton, democrats.

Against Stephenson—Borah, Bourne, Cristow, Brown, Clapp, Crawford, Cummins, Dixon, Gronna, Jones, Kenyon, La Follette, Poinsett, Smith of Michigan, Townsend and Works, republicans; Bryan, Chamberlain, Culbertson, Gardner, Hitchcock, Johnson, Kern, Lea, Martine, Myers, O'Gorman, Owen, Percy, Shively, Smith of Georgia, Smith of South Carolina, Stone and Williams, democrats.

List of Pairs
The pairs were: Nelson with Bacon, Gallinger with Clark of Arkansas, Guggenheim with Davis, Cullum with Simmons, Paynter with Gore, and Bailey with Reed, the first named in each case being favorable to Stephenson and the last named against him.

The senators unrecorded and unpaired were: Martine and Swanson, Virginia; Kaylor, Tennessee; Tillman, South Carolina, and Mr. Stephenson, who, of course, refrained from voting. For Senator Taylor, Mr. Lea explained that he was too ill to be consulted.

ALLENS REPORTED TO BE 250 MILES AWAY

HILLSVILLE, Va., March 28.—Scouting the report that two of the Allen outlaws had been seen near Luray, Va., 250 miles north of here, detectives here today are close in on the Blue Ridge fastnesses, where they feel certain the assassins are now cornered. The story from Luray was that a farmer had been accosted by two men, one absurdly disguised in women's clothes and a sun bonnet that hid concealed a ragged growth of beard.

MUST CLOSE ALL DAY

MADISON, Wis., March 28.—In an opinion written by Third Assistant Attorney General J. E. Messerschmidt, Attorney General Bancroft today held that saloons could not legally be opened after the polls close on election day.

The law declares that saloons must close on all general election days but saloonkeepers have been in the habit of opening them as soon as the polls have closed. The attorney general holds that a "day" means from one midnight to another.

VETO APPROPRIATIONS

WASHINGTON, March 28.—The house today "saw daylight" in cleaning up its important business for an early adjournment following the action of the democratic caucus last night in vetoing appropriations for more battleships and the proposed public buildings "pork barrel" bill.

Kimona Girl Becomes Hysterical In Court

CHICAGO, March 28.—Succumbing to an acute attack of hysteria from which she has been suffering in modified form ever since she went through her grilling cross-examination, Esther Mercy, the "Kimona Girl" of the University of Chicago, caused an uproar in Judge Pomeroy's court today during the trial of her \$100,000 slander suit against Dean Marion Taft.

R. Wormsey, a character witness, had been called to the stand and asked if he could identify Miss Mercy. Wormsey hesitated.

Rising from her seat the girl swinging her arms wildly about her head shouted: "Look at me! Do you know me? Tell them if you know me, and what do you know about me?"

The girl was restrained with difficulty and Judge Pomeroy warned her that further outbursts would meet with punishment.

FISHERMEN PLAN TO HEAR LECTURE

Will Come from All Points on River to St. Paul to Attend Meeting on Saturday

WILL JOIN THE DISCUSSION

Much Interest Is Being Aroused in Work of New Hunting and Fishing Club

In a talk with Attorney F. E. Withrow, Dave Gantenbein of Diamond Bluff, one of the biggest fishermen in the Mississippi valley, stated that he and a large number of fishermen along the river from St. Paul to below La Crosse intend to come to this city to attend the meeting of the La Crosse County Game and Fish association which is to be held at the old Y. M. C. A. building Saturday evening. At that time J. Loring of Oswego, N. Y., will be here to address the meeting on the fishing question.

All the big fishermen on the river intend to be present at the meeting and to join in the discussion on the subject of fishing which will take place following Mr. Loring's address. All the men, who are experts on the subject of fishing, will give their views on the subject and an interesting discussion is due to ensue. All the commercial fishermen are desirous of co-operating with the rod fishermen in passing and enforcing game and fish laws and steps will probably be taken to join the local association. It will be a great privilege to hear what these men will say regarding fishing as all are well qualified to speak on this topic.

Auditorium Not Taken
CHICAGO, March 28.—S. H. Chandler, auditor of the Auditorium Theater Company today declared that he had received no advance from the Roosevelt committee or anyone connected with Col. Roosevelt for an option on the theater for the week of the republican national convention here in June.

PROGRESSIVE LAWS IN CONSTITUTION
COLUMBUS, Ohio, March 28.—An early adjournment of the Ohio constitutional convention is assured today as a result of the adoption of an initiative and referendum measure. The hardest fight of the convention ended last night with the passage of this proposal by a vote of 97 to 15, granting the voters of Ohio the right to initiative of desired laws and constitutional amendments and to pass on all legislation enacted by the legislature.

OPERATE ON TAYLOR

WASHINGTON, March 28.—As a last resort to save Senator Robert L. Taylor, of Tennessee from death, physicians today rushed "Fiddling Bob" to Providence hospital and hurriedly operated on him for gall stones. The Tennesseean was reported to have withstood the operation fairly well, but his condition is extremely critical, owing to his weakened health. Fellow senators fear he may not rally from the operation.

ROADS SEIZE COAL

INDIANAPOLIS, Ind., March 28.—Larger coal dealers of this city today asserted that the railroad companies whose lines run here are confiscating coal shipped over their lines in anticipation of a general strike of bituminous coal miners. Officials of the New York Central and Pennsylvania railroads denied the allegations.

SAY T. R. PLANS A THIRD PARTY

Statement by Pinchot Today Taken to Forecast Colonel's Plan if He Is Not Named

ROOSEVELT DENIES STORY

In St. Louis Today Colonel Declared that "Any Statement Like That Is Fake"

WASHINGTON, March 28.—Not since the stormy days of 1896 when the democratic party was disrupted by the "Gold democratic movement," have politicians been so stirred as today. Many leaders of the republican organization here, Roosevelt and anti-Roosevelt men, interpret Colonel Roosevelt's statements in Chicago last night that republicans are not bound to respect a "nomination secured by thugery" as meaning that if he himself is not the nominee, he will head a third party movement.

Pinchot Assails Taft
This belief, they claimed, was borne out by a remarkable statement issued today by Gifford Pinchot, former chief forester and one of the Roosevelt field marshals. Answering the allegation that Roosevelt violated the bonds of friendship and proved ungrateful by launching his candidacy in opposition to Taft, Pinchot with bitter language, assailed the president and asserts that Roosevelt, not Taft, was the friend that was betrayed.

"Roosevelt believed that Taft could be trusted to stand firm for the people and so he supported him for nomination and election in 1908," said Pinchot, "but the record shows that Roosevelt was mistaken. Taft could not be trusted. Therefore the people have called upon Roosevelt to take up the burden of the presidency and so repair his mistake. It would not be fair to the people for him to refuse the call and let them suffer another four years of special interest government under Taft."

T. R. Denies Tale
ST. LOUIS, Mo., March 28.—Heated denial was made by Col. Roosevelt today to published stories that he had indicated his intention to bolt the ticket in case he failed in landing the presidential nomination before the Chicago convention and President Taft was named. Through his secretary he issued the following statement:

"Any statement like that is a fake. Any time I have anything to say on such a subject, I will say it myself and anything purporting to come from me unless I say it myself is a fake."

Absolute denial of a report that the Roosevelt forces had taken an option on the Auditorium in Chicago, was made by Alexander H. Revell, president of the National Roosevelt league, with the colonel here. The statement that an option had been taken on the Auditorium gave rise to reports that the Roosevelt forces were planning to bolt the party and place the colonel at the head of a third ticket and that the theater had been optioned as a meeting place.

Auditorium Not Taken
CHICAGO, March 28.—S. H. Chandler, auditor of the Auditorium Theater Company today declared that he had received no advance from the Roosevelt committee or anyone connected with Col. Roosevelt for an option on the theater for the week of the republican national convention here in June.

Kaiser Breaks Up Daughter's Love Affair

BERLIN, March 28.—Court and society circles generally were anxious to know today whether Princess Victoria Louisa only daughter of the kaiser, is in exile with her royal parent at Corfu because she fell in love with a dashing young lieutenant of the guards. Dame Rumor insisted that the reported illness of the princess was the invention of the kaiser, who had broken up another love match. The lieutenant is the hereditary Count George Constantine Fugger-Habens-Habens, son of the former Princess Eleanor Hohenlohe-Bartenstein. His father is the Prince Fugger-Habens-Habens, one of the best known of the Hungarian aristocracy. The couple were hopelessly in love before the kaiser heard of the attachment and started to break it up.

M'GOVERN CALLS BALLOTS LEGAL

Says Philipp's Contention About Delegates Is Unfounded; Election Is Legal

DID NOT WANT PRIVILEGE

Declares that Philip Dare Not Put Designation After Names of Taft Men

MADISON, Wis., March 28.—Governor McGovern today issued the following statement:

"Since my statement concerning the form of the ballot to be used next Tuesday for the election of delegates to national conventions was given to the public press a few days ago I have been pleased to learn that the views then expressed have the approval of both the secretary of state and the attorney general. I then invited a contest in the courts should anyone in authority question the propriety of the notation 'La Follette delegate' placed on these ballots after the names of progressive republican candidates and proposed a method whereby such a contest might be speedily determined. As apparently no one wishes to make such a contest we may now consider the strictly legal argument at an end.

Philipp Not Silenced

"But Mr. Philipp has not yet been silenced. He still maintains that the election of these delegates will not be held under the provisions of section 30 of the statutes and in support of his contention says Section 30 is a provision for the nomination of candidates by nomination papers instead of under the primary election."

"Precisely so. It is very strange, however, that Mr. Philipp is unable to apply this logic to the present situation. There has been no primary election for the nomination of candidates for delegates to the national convention. All of these candidates were nominated by nomination papers. What Mr. Philipp says is a perfectly good reason therefore, for holding that the election of these delegates should take place pursuant to the provisions of section 30. How from these premises he reaches an opposite conclusion he does not explain.

Request Granted

"But it has been said that if it be right to insert the phrase 'La Follette delegate' after each of the names of the progressive republican candidates it must be equally proper to insert the words 'Taft delegate' after the names of the stand-pat candidates. True, and this is just what has been done. The only request for such designation came from the Taft candidates in the Eighth congressional district and the ballot printed for that district comply with this request by placing the words 'Taft delegate' after the name of each one of these candidates. The same thing would have been done elsewhere so far as the stand-pat candidates are concerned had they so requested or desired.

No Hope for Taft

"The point is that they did not so desire. Mr. Philipp's organization has no expectation whatever of electing any Taft delegates in Wisconsin in an open, frank contest. What he hopes for rather is the possibility of electing some well known stand-pat candidate on the score of his personal popularity if only the fact can be concealed that he is running as a Taft delegate.

"Knowing the political sentiment among republicans in Wisconsin as Mr. Philipp does, one cannot blame him for preferring not to label his candidates Taft delegates. But merely because he does not wish to come out into the open is no reason or justification for his criticism of others who prefer light to darkness and want no support except such as can be fairly openly and honorably won.

"Mr. Philipp wants to know what the rule would be if the La Follette

COUNTY BOARD FOR RAWLINSON

Supervisors Are Unanimous in Support of the County Clerk; Pass Resolution

URGE HIM FOR RE-ELECTION

Vote of Thanks Also Extended to Chairman Davis for Efficient Service

••••• A resolution endorsing the services of Charles Rawlinson as county clerk and requesting him to become a candidate for re-election at the next election and urging the support of all political parties in La Crosse county if he should become a candidate, was unanimously adopted at the afternoon session of the county board yesterday. The resolution was introduced by Supervisor J. Jacobs and the roll called to which every member answered in the affirmative.

Another resolution offered by William Wolfe extending the thanks of the board to Chairman R. W. Davis for his faithful services as chairman of the board was also unanimously carried.

The Rawlinson resolution is given in full as follows:

"Whereas, the present incumbent of the office of county clerk, Charles H. Rawlinson, has filled that important office to the complete satisfaction of the county board of supervisors for several years, and

"Whereas, the county clerk, in his official capacity, is brought into close relationship with the county board, and the duties and responsibilities of the position are such that efficiency and attention are requisites of the utmost importance to the county board and the transaction of county business, and

"Whereas, the present incumbent of the office has performed the duties of the position with the highest efficiency and with keen realization of the responsibilities of the place, both to this board and the public, and at all times has been courteous, obliging and willing in the performance of his duties, therefore be it

"Resolved, that the county board of supervisors of La Crosse county do hereby commend Charles H. Rawlinson for the faithful and efficient manner in which he has filled that office and performed its duties, and we hereby request and urge him to become a candidate for re-election and commend his candidacy to the electors of the county, believing and knowing from our relationship with him that he is deserving of the rewards that should come to a faithful and able public servant, and that his re-election at this time will be of advantage to the county, and that most important office should be eliminated, and his candidacy endorsed by all political parties in La Crosse county."

The resolution thanking Mr. Davis is as follows:

"Whereas, the board recognizes the faithful services performed by its chairman, Mr. R. W. Davis, throughout his term of office and the untiring and intelligent efforts he has shown and the ability with which he

WEATHER

For La Crosse and vicinity: Generally fair tonight and Friday with moderate temperature.

For Wisconsin: Generally fair west, probably rain east portion tonight or Friday; not much change in temperature.

For Minnesota: Generally fair tonight and Friday; colder tonight.

For Iowa: Generally fair tonight and Friday except rain southeast portion tonight.

Weather Conditions
The pressure continues low throughout the northwestern states and the weather fair with moderate temperature. In the southwest the low has developed into a moderate storm, moved eastward into western Louisiana and caused rain and local thunderstorms from Texas northeastward into Missouri and the Ohio valley. Cloudy weather with local rain continues in this section this morning. The rainfall was moderate except at Oklahoma, where 2.12 inches was recorded. The temperature changes have been small as a rule in all sections.

The southern low will pass to the northeastward but too far south to cause rain in this section and little if any precipitation can be expected from the northwestern low. The weather will therefore be generally fair in this section tonight and Friday with no decided change in temperature.

SPOTLIGHTS

A young actress, occupying a prominent position in the support of Margaret Anglin, and appearing in the new comedy, "Green Stockings," is Juliet Fremont, whom Miss Anglin, an excellent judge of acting, has recently "discovered."

Miss Fremont, since she was a debutante a few years ago, occupied until recently a prominent position in Washington society. She belongs to a distinguished American family, being the granddaughter of John C. Fremont, the "Pathfinder" of Fennimore Cooper's tales, and she is the youngest daughter of the late Rear

Admiral John C. Fremont, who died last summer.

Before adopting the stage for a professional career, Miss Fremont was very attractive in local amateur theatricals in Washington, where her parents made their home. With Mrs. Nicholas Longworth and a few other young women, she formed a class for the study of classical dancing two years ago in Washington.

Miss Anglin has expressed the opinion that the new recruit to the American stage has every qualification for the vocation she has chosen. The opportunities she enjoyed while in Paris and St. Petersburg, where she resided when her father was naval attaché of American embassies, of studying the drama of Russia, France and Germany, have fitted her with a training which is not usually the good fortune of stage as-

pirants.

These advantages would, of course, be of little value if the young lady had no natural histrionic talent, which, however, in Miss Fremont's case exists abundantly. Being intelligent and observant, it may be assumed that Miss Fremont has profited materially by the preliminary help that chance threw in her way. La Crosse theater Saturday night, March 30.

UNCLE TOM

Before the civil war there was hardly a plantation in the south but boasted a whipping post to which the owner's slaves were fastened while being punished with the cruel whip. To faithfully depict the actual scenes in that part of the south with which the story deals, Manager Washburn uses in his production of Stetson's "Uncle Tom's Cabin," which will be the offering at the La Crosse theater Sunday, March 31, matinee and night, a whipping post which was in service on a Red River plantation for many years prior to the rebellion. Its genuineness cannot be disputed when one reads the affidavit from the farmer-owner, which Manager Washburn always carries and a copy of which is on file in a Louisiana court of record.

Although spring seems to be loitering somewhere, the open season has arrived for spring poets.

CANADA BARS FAMILY TAKE VOTE TO SETTLE

CANADIAN AUTHORITIES REFUSE TO ADMIT WOMAN ON WAY TO JOIN HER HUSBAND

MILWAUKEE, Wis., March 28.—Reciprocity between the United States and Canada politically and charitably exists—NOT.

The former was determined some months ago, the latter became known at noon when a message was received at the local offices of the associated charities eliciting that Mrs. Mary Schmidt and her family of eleven children an interest in whom was taken by the entire city, would be barred from Canada on the ground of being objects of charity.

Agents of the charity organization two days ago placed the little Schmidt mother and her brood aboard a train bound for Canada, where they planned to join the Schmidt father, a struggling homesteader.

Found in a west side hovel during the zero weather, the mother and several children ill, the Schmidt mother's story became known. Public interest was aroused through the charity workers and with a well filled purse and well provisioned lunch baskets the entire city rejoiced when the little mother and her children started for their Canadian home.

A movement will be started at once asking the Canadian immigration authorities to be lenient in this case.

It is easier to promise bread than it is to provide butter. Some of the charity that begins at home isn't up to the standard.

"Got My Sore Foot in It Right!—TIZ"

"A TIZ Bath, My Boy, a TIZ Bath!"

You Can't Beat It For Sore Feet, Corns and Bunions!"

Is this man a tender-foot? No. He is joy-walker—one who uses TIZ and gets from the feet a happiness one never felt before.

When your feet are so tired they feel like stumps, when they ache so that they hurt way up to your heart, when you shamble your feet along and it seems as though all the misery you ever had has settled in your feet, look at the happy TIZ man in the picture.

You can be happy-footed just the same. If you have corns and bunions that everybody seems to step on, just think of this happy TIZ man. He had corns and bunions, too. This man used TIZ, and now he has no more tender, raw, chafed, blistered, swollen, tired, smelly feet, corns, callouses or bunions.

As soon as you put your feet in a TIZ bath, you feel the happiness soaking in. It's like mountain ozone to lungs.

Nothing else but TIZ can give you this happy foot feeling. Don't accept any substitutes.

TIZ, 25 cents a box, sold everywhere, or sent direct, on receipt of price, by Walter Luther Dodge & Co., Chicago, Ill. Recommended by all Drug Stores, department and general stores.

ENGLISH MINERS WILL HOLD REFERENDUM TO DECIDE WHETHER THEY WILL END STRIKE

LONDON, March 28.—A final effort will be made to end the coal strike on the terms proposed by Premier Asquith a week ago. After a lengthy conference, at which appeals to compromise were made by many leading labor members of parliament, the miners federation today ordered a referendum vote of the individual members on whether to accept the minimum wage bill without definite figures. This bill will pass the house of lords this evening and be signed by the king tomorrow.

ONALASKA, WIS.

A cantata, "Zion," is to be given in the Methodist church here next Wednesday evening under the auspices of the Ladies' Aid society of that church. Miss Anna Aiken is directing the musical, which is composed of about fifty voices, the majority of whom are local talent. Some very interesting solos, duets and quartets, as well as a children's chorus are to be rendered. The proceeds are to be used for church improvements and it is hoped that it will be well patronized.

An Epworth league social will be given in the Methodist church here Friday evening to which the leagues from La Crosse are invited. An interesting program has been arranged by the members of the local league.

Even Evenson, who has been employed at Rockford, Ill., the past few months by the National Biscuit company, arrived home Tuesday morning to spend a day with his mother here. He has been transferred to Duluth, Minn., and left for that place Tuesday evening.

Charles Dawdy, who has been traveling for the Onalaska Pickle company for a couple weeks, arrived home in Englewood, N. D., Tuesday after spending the winter here. They were accompanied by Elmer Kommerstad, who will spend the summer there.

Mrs. Heffernan of Wilton, Wis., has been spending the past week with her sisters, Mrs. T. A. Moran and Miss Saunders.

Miss Jennie Moe returned to her work at Minneapolis Saturday after spending a couple of weeks with her parents, Mr. and Mrs. Ed Moe.

Mrs. Frank Williams of Ettrick arrived Saturday to spend a few days with her parents, Mr. and Mrs. Andrew Storandt.

Miss Mae Solem, a student of the Agricultural school, arrived from her home in Hillsboro, Wis., Sunday to resume her studies. She was called home a couple of months ago on account of the illness and death of a sister.

James Showers returned from Rushford, Minn., Monday, where he spent Saturday and Sunday with friends.

E. T. Johnson left for Black River Falls Monday to oversee some work there for the Onalaska Pickle company. He was accompanied by Ed Johnson, Frank Hagenbaugh, Harvey Riebe and Sydney Moore, who will be engaged in packing and shipping pickles for the next few weeks.

Mr. and Mrs. W. C. B. Showers of Elroy are the parents of a daughter born Monday. Mrs. W. J. Showers of this city left for that place Tuesday to spend a few days.

Miss Grace Thomas arrived from North Bend Monday, where she has been teaching school the past year to spend a few days with Miss Lovie Westeraas.

Eddie Nelson left for Hutton, S. D., Monday, where he will be employed for a few months.

The masons are busy putting in the cement water table for the Onalaska State bank.

HIGH SCHOOLS BURNS

BUFFALO, N. Y., March 28.—Fire this afternoon destroyed the Mastin High school building, a \$750,000 structure. The fire started in the attic. The 1,000 pupils were thrown into a panic, and the fire drill was forgotten in the wild scramble to get out. The flames did not reach the lower rooms, however, until all had reached safety.

THE SMART SET HAS PLACED ITS SEAL OF APPROVAL ON SOCIETY HOSIERY

THE SILK STOCKINGS WITH THE STYLE, WEAR AND FIT

Coles Phillips, the famous New York artist, has said woman must lavish most of her attention on the shoes and stockings that dress her feet.

He is right. No woman of today can afford to wear ill-fitting shoes and shoddy stockings, and no shoes, however expensive, look well over a flimsy, cheap looking hose.

SOCIETY STOCKINGS

Are woven of heavy pure silk, are exceptionally long, with reinforced heel, sole and toe and double knit garter top. They have all the durability of the old time hosiery combined with the beauty of the silk. In their weaving the greatest care has been taken, with the result that there is no unseemly bagging at the ankle or instep.

SOCIETY STOCKINGS look their part—they are fine, sleek and thoroughbred.

SOCIETY HOSIERY is not on sale at the shops, but must be purchased from us direct by mail. In this way we eliminate the dealer's profit, greatly reducing the cost to you and also prevent the substitution of an inferior grade of hose.

These stockings positively will not run; they come in all colors, and will be sent by mail to any address, all charges prepaid. If on inspection you are not satisfied—you to be the sole judge—you your money in full will be refunded.

Special prices to introduce our Society Silk Hosiery good for ten days only.

latter wrote Governor McGovern for information, and upon receiving the
above letters handed them to Mr. White to put him right as to the facts.Commenting upon the above letters, which he had in his possession
when he wrote the accompanying criticism, Mr. White made the follow-
ing statement to a contemporary:"The balance between what has been spent and the total es-
timate will never complete the capitol and any contractor
knows it. Instead of being almost completed the work is only
well begun. The governor too does not take into account at all
the value of the land, not less than a million. When the work
has been completed I'd like to have my estimate of its cost com-
pared with the governor's."You see, Mr. White knows more about it than does the governor and
chairman of the capitol commission. How? Did he inquire at the prop-
er source of official information? No, he got an "estimate" from a "con-
servative authority" which he fails to identify, and he added the grounds,
which the state already owned, and which were not in the estimates upon
which the appropriation was made, and the value of which could have
no bearing on his charge that the cost of the capitol would exceed the es-
timate.Mr. White having neglected the courtesy of getting the official fig-
ures before publishing the governor as a liar or a fool, in the alterna-
tive, The Tribune did so for his benefit. The capitol commission was
prompt and courteous—the men are all gentlemen as well as business men
of the broadest type—and we are now permitted to give the facts.In the first place, while the cost of the dome cannot be estimated as
closely as that of the wings, the commission's tentative figures show the
probable expense to be not more than \$2,000,000. Mr. White's declara-
tion that it will cost \$3,000,000 was probably based upon an unauthor-
ized newspaper story that made its way about the state.The following statement of money already expended furnished us to-
day by the secretary of the capitol commission is later and more com-
plete than the figures furnished by the governor, which accounts for
some slight variance:

Construction of the east wing	\$ 756,143.34
Construction of the south wing (this is the wing not yet completed)	374,570.30
Construction of the west wing	752,961.41
Power plant and tunnel	491,616.30
Architects	149,073.07
Construction of the central portion, including the granite that has been cut and stored but not set (dome)	566,345.43
Decorations	85,515.74
Grounds	60,401.27
Furniture	71,089.47
On the old structure, making it available for use during the construction of new building, and for this purpose the legislature made available \$50,000	40,072.26

From these figures it will be seen that the financial status of the ca-
pitol is now approximately as follows:

Total appropriation	\$6,055,000
Expended to date	3,398,000
Still available	\$2,657,000
Remaining expenses—	
Untouched wing	750,000
Remainder of third wing	378,000
Remainder of dome	1,450,000
Total	\$2,578,000

This leaves approximately \$80,000 for administrative and incidental
expenses, and indicates that not only will the capitol be finished within
the appropriation, but that the appropriation in addition to covering the
original plans and specifications will have provided a tunnel and other
additional features at a cost of approximately \$500,000.It would seem that, had Mr. White cared to be fair and accurate, he
might have secured these details from the commission, which would
have been glad to accommodate him, before rushing into print with in-
correct figures calculated to mislead the public regarding an important
state enterprise.Mr. White cannot be blamed for having presumed that \$4,500,000
has already been spent upon material used up to date. Governor McGov-
ern having used the word "spent" in answering Mr. Schweizer's inquiry as
to "the amount of the obligations already assumed," to which \$450,000
was the correct answer. In addition to this, Mr. White did not take
pains to learn that, because of shortage of storage at Madison, the state
pays for granite ready for shipment at the quarry and for iron prepared
and stored by the foundry, and advances for this sort of material ready
for use but not used are incorporated in the \$3,398,000 already ex-
pended.The fact is that two of the four wings are completed, and the third
is well advanced as is also the dome. Every wing and every feature is
religiously inside the appropriation.Now, in reference to Mr. White's comparison of the Wisconsin and
Minnesota capitol: He puts the price of the Minnesota capitol at \$3-
500,000 exclusive of grounds, which were not included in the Wisconsin
appropriation. He is mistaken to the trifling extent of \$600,000, a tele-
gram from Secretary of State Schuchman to The Tribune placing the cost
of the Minnesota structure, exclusive of grounds, at \$4,100,000. But the
comparison of cost without comparing what was secured for the money,
is unfair. The usual basis for general estimates is in cubic space, and
be it known to Mr. White that the Wisconsin capitol contains approxi-
mately 50 per cent more cubic space than does the Minnesota capitol,
and notwithstanding the extraordinary expense involved in the dome of
the Wisconsin capitol, and the increase in the cost of building material
and labor since the Minnesota capitol was completed in 1904, the latter
will cost but approximately 50 per cent more than the Minnesota capitol.
Thus we tally well with Minnesota in the matter of economy, having a
shade the better of it owing to the higher cost now prevailing.One word more: Mr. White charges this state capitol up against
Senator La Follette. Some of his conservative republican friends will
resent this. For instance, Senator Whitehead, if memory serves us,
was chairman of the legislative committee that did the heavy financial
work. The present capitol commission consists of Governor McGov-
ern, O. H. Ingram, Geo. H. D. Johnson, J. A. Van Cleave and Magnus
Swenson. Mr. Ingram is an Eau Claire banker, a conservative in poli-
tics; Mr. Johnson, of Milwaukee, is a moderate conservative; Mr. Van
Cleave, of Marinette, is associated with Isaac Stephenson
in the banking business. Magnus Swenson is an ally of former
Governor Davidson. McGovern is the only La Follette progressive on
the commission, and he is the newcomer. The others, all level headed
and capable business men of large experience, are of other political
faiths. They have put into the building of the capitol their best
thought and effort, and it is not strange that, having achieved won-
derful results in the way of a splendid edifice as well as in economy,
they experience pride and satisfaction in their work.When "Farmer" White chops wood, he should mind where the
chips fall.

"Will you kindly translate that for

judges I have ever met. He was off
at a bound. I only hope he will get
back before we leave for Califor-
nia." The Major drew up his col-
lar. It was a cold, blustery day.The agent was delighted. What
luck a fellow like Jones had! To
wander all over creation and to
meet charming people! And when
they invited him to remain for
luncheon, the victory was complete.Mrs. Chedsoy strolled in and out
of the beautifully appointed rooms.
Never had she seen more excellent
taste. Not too much; everything
perfectly placed, one object nicely
balanced against another. Here was
a rare bit of Capo di Monte, there
a piece of Sevres or Canton. Some
houses, with their treasures, look
like museums, but this one did not.
The owner had not gone mad over
one subject; here was a sane and
prudent collector. The great yel-
low Chinese carpet represented a
fortune; she knew enough about
carpets to realize this fact. Ivories,
jades, lapis-lazuli, the precious
woods, priceless French and Japa-
nese tapestries, some fine paintings
and bronzes; the rooms were full
of unspoken romance and adven-
ture; echoed with war and trage-
dy, too. And Fortune might have
married a man like this one. A
possibility occurred to her, and the
ghost of a smile moderated the in-
terest in her face. They might be
upon the desert for weeks. Who
knew what might not happen to
two such romantic simpletons?The butler and the first man
(who was also the cook) were im-
peccable types of servants; so
thought Reynolds. They moved
silently and anticipated each want.
Reynolds determined that very af-
ternoon to drop a line to Jones and
compliment him upon his good
taste in the selection of his friends.
A subsequent press of office work,
however, drove the determination
out of his mind.The instant his car carried him
out of sight, a strange scene was
enacted. The butler and the first
man seized the Major by the arms
and the three executed a kind of
pas-seul. Mrs. Chedsoy eyed these
manifestations of joy stonily."Now then, what's been done?"
asked the Major, pulling down his
cuffs and shaking the wrinkles
from his sleeves."Half done!" cried the butler.
"Fine! What do you do with the
refuse?""Cart it away in an automobile
every night, after the gun starts
down the other end of the street.""Gun?" The Major did not quite
understand."Gun or bull; that's the argot
for policeman.""Thieves' argot," said Mrs. Ched-
soy, contemptuously.The butler laughed. He knew
Giaconda of old."Where's that wall-safe?" the
Major wanted to know."Behind that sketch by De-
taille." And the butler, strange to
say, pronounced it Det-i.

"Can you open it?"

"Tried, but failed. Wallace is the
man for that.""He'll be along in an hour or
so."

"Where's Ryanne?"

"Don't know; don't care." The
Major sketched the predicament of
their fellow-conspirator.The butler whistled, but callous-
ly. One more or less didn't matter
in such an enterprise.When Wallace arrived he applied
his talent and acquired science to
the wall-safe, and finally swung
outward the little steel door. The

Wrinkled, Saggy Skin

(From Beauty and Health)

The famous sallow lotion recom-
mended by beauty specialists for re-
moving wrinkles and for reducing
distended pores, can be made at
home. Ask your druggist for saxo-
lite in powdered form, 1 oz., and 1/2
pint witch hazel. Dissolve the pow-
der in the witch hazel and bathe the
face, neck and hands in the solution.
Results are remarkable, and instan-
taneous. The skin tightens, and this
naturally reduces the wrinkles, as
well as creases or folds about the
neck, cheeks or hands. The tissue
beneath the skin also becomes firm-
er and more solid.One feels much refreshed and ex-

for only a short time makes one
look five or ten years younger.WHITE STATEMENT AND
FACTS ARE STRANGERSWe hate to give expression to a doubt, however reasonable, that
neighbor Cash White is sincere in his protestations about state finan-
ces, but after analyzing his recent comment on the cost of the state
capitol in the light of certain other facts, we confess grave misgivings
as to the bona fides of his utterances.In order that we may not be judged to have unfairly arrived at
this state of skepticism, we hereafter publish, side by side, Mr. White's
statement and two letters written by Governor McGovern, ex-officio
chairman of the capitol commission, WHICH MR. WHITE HAD IN HIS
POSSESSION WHEN HE WROTE HIS STATEMENT:

"EXECUTIVE CHAMBER

"Madison, Wisconsin

"February 27, 1912.

"Mr. C. H. Schweizer,

"La Crosse, Wisconsin.

"My dear Mr. Schweizer:

"Replying to your letter of the
23rd instant permit me to say that
the critic you mention is wrong in
all of his contentions. The original
appropriation for the new capitol
building was not \$6,000,000 but \$6-
060,000. But this is a small error
compared to the claim that this ap-
propriation has already been exceed-
ed. The fact is that only about \$4-
500,000 has thus far been spent and
the new capitol will be completed
easily within the appropriation. Not
only will this be done but a \$500,000
power plant and heating tunnel ap-
propriated to the capitol but not
mentioned or thought of at the time
the original estimate was made has
been built and yet the entire cost
will not exceed the amount origi-
nally provided. The talk about the
capitol costing \$10,000,00 is pure
moonshine."Very truly yours,
"FRANCIS E. MCGOVERN.""Francis E. McGovern,
"February 29, 1912.

"My dear Mr. Schweizer:

"In addition to what I wrote you
day before yesterday it has occurred
to me to call your attention to some
figures which justify the general
statements I then made to refute the
claims of those who charge extrava-
gance in the construction of the new
capitol. The legislative appropria-
tion allowed \$800,000 for the con-
struction of each of the wings. Two
of these have already been com-
pleted and the third is well on the
way. The actual cost of construction
of the West wing was \$751,818.90;
of the East wing \$751,522.85. The
south wing I believe will cost less
than either of the other two. Of
course it may be claimed that these
figures do not include the cost of
decoration, which is true. But this
cost in the case of the West wing
amounted to but \$48,543.04 and thus
far on the east wing \$17,472.70. . . .
These figures show how closely the
Commission has kept within the ap-
propriations made by the legislature."When the building is done it will
be without doubt one of the very
finest in America. The architect,
Mr. Post of New York, one of the
greatest in his profession in this
country, predicts that it will be the
finest building in the world. In ad-
dition to the unique type of architec-
ture it will possess the rare quality
of being absolutely genuine from the
bronze figure that will surmount the
dome to the foundation stones. There
will be no deception anywhere and
no veneering so that it will not be
necessary for the people of Wiscon-
sin to run their knives into the cas-
ings or cut the heads off marble
eagles in order to be sure that what
appears to be mahogany is genuine
and that the eagle was not after all
a plaster cast, as has been done in
Pennsylvania's new capitol."But I suppose neither the beau-
ty nor the fundamental honesty of
the building, nor even the fact that
it will be completed within the origi-
nal appropriation will ever arouse
patriotic pride in fellows such as the
one who engaged you in this discus-
sion who are looking only for some-
thing to criticize."Very truly yours,
"FRANCIS E. MCGOVERN."By way of explanation, Mr. White having made the statement in Mr.
Schweizer's presence that the capitol had already cost \$10,000,000, the

White's statement:

"Notice the extravagance

of the state capitol commis-

sion. The legislature

was extravagant enough

to appropriate \$6,060,000,

together with the capitol

grounds. There has now

been, according to a re-

cent letter from the gover-

nor, \$4,500,000 of this ap-

propriation used and some

of the wings are not even

started, the dome being

just nicely under way. Con-

servative authority esti-

mates the capitol, when

completed, to cost this peo-

ple ten million dollars, be-

side the grounds. Compare

this extravagance with

Minnesota. Her beautiful

Georgia marble structure,

considered the finest and

most commodious in the

northwest, cost \$3,500,000,

just \$500,000 more than

our dome. The grounds,

decorating and furnishing,

making the Minnesota cap-

itol ready for the state's

officials, cost \$4,500,00. The

great state of Missouri has

an appropriation of \$3,500-

000, and will build a mag-

nificent building. Is it good

policy for our state to de-

mand extra taxes from the

people to pay for this un-

warranted extravagance?"

NORTHWEST NEWS

LAD INDICTED ON MURDER CHARGE

MORA, Minn., March 28.—Eugene Thomas, 17 years old, of Minneapolis, was indicted for murder in the first degree by the Kenabec grand jury this morning. He will plead to the charge this afternoon, it is expected.

Relatives of the boy are urging that he plead guilty and throw himself upon the mercy of the court. They believe his age would tend to influence the court to grant clemency, and the prospect of regaining his freedom would be better than if he were sent to an asylum, following a plea of insanity, his probable defense should be plead not guilty. His father, it is reported, is inclined to feel a plea of guilty would be the wiser course. Attorney Brady of Minneapolis is counsel for the prisoner.

Winters was a bachelor home-steader. He was killed by a blow in the head from a blunt instrument. The authorities are at a loss to assign a motive for the crime. Young Thomas' uncle had agents seeking the boy, it is said, the day before the murder, because the youth had appeared demented.

SMUGGLING CASE IS TO BE INVESTIGATED

CANDON, N. D., March 28.—There have been interesting developments in this city since the seizure of jewelry and other valuables last Monday by George Foulkes. A son of the merchant who is alleged to have brought the stuff to America from Europe without paying duty, has suddenly departed from the city, and is supposed to be on his way to New York City, where his father is due to land the latter part of this week, being on his way home with a purchase of fifty head of horses bought in France.

The seizure was made so secretly that practically no information has been obtained here as to the exact course the officials propose to pursue in the case.

There have been no warrants issued, and unless there are further complications, a cash settlement may be made.

WHEAT SUPPLY IS MORE THAN NEEDED

REGINA, Sask., March 28.—There are 8,000,000 bushels of tough wheat in this province still to be marketed, 30,000,000 bushels of dry wheat and 20,000,000 bushels still unshelled, with elevators at Fort William and Port Arthur full and an embargo threatened by the railways on Duluth, which, it is reported, has capacity for only 5,000,000 bushels left; hence the grain situation in Saskatchewan is more acute today than ever. Unless some relief can be found the loss threatens to be enormous.

To Mothers—And Others

You can use Bucklen's Arnica Salve to cure children of eczema, rashes, tetter, chafing, scaly, crusted humors, as well as their accidental injuries—cuts, burns, bruises, etc., with perfect safety. Nothing else heals so quickly. For boils, ulcers, old, running or fever sores or piles it has no equal. 25 cts at O. T. Erhart.

POLICE CHARGED WITH INEFFICIENCY

ST. PAUL, Minn., March 28.—Charges of inefficiency in the Minneapolis police department were made last night by Rev. James Freeman in an open letter to Mayor Jas. C. Haynes. The charges are based in part on the alleged incompetency and indifference of "certain departments" of the city administration. He criticizes the department severely.

STOCK SPECIAL ARRIVES SATURDAY

MADISON, Wis., March 28.—Those in charge of the special demonstration train of the Wisconsin Livestock Breeders association were greatly gratified by the large crowds of farmers who met the train at its stops since starting out last Monday. The audiences are estimated as follows: Lancaster, 300; Dodgeville, 100; Fennimore, afternoon and evening, 400 and 600; Livingston, 500. The train spent this morning at St. James and went to Lad for the afternoon. Tomorrow it will visit Reedsburg, Norwalk and Sparta, and on Saturday will be at West Salem and Galesville. A similar train will later on be operated in upper Wisconsin.

Horse breeders' associations were organized at several places on the route this week.

SANATORIUM IS A STEP IN ADVANCE

The greatest experts of this and other countries are practically agreed that the establishment of county sanatorium for advanced cases of tuberculosis is the greatest step yet taken for the ultimate elimination of tuberculosis. The expense involved is small compared with the tremendous possibilities for good which can be accomplished. Ask yourself under these circumstances, "What good reason can I give for refusing to support the sanatorium proposition?"

CATARRH MISERIES FOREVER ENDED

A Simple, Safe Remedy Brings Instant Relief, Even in the Worst Cases

The most effective and harmless way to cure catarrh or a cold in the head is to apply a little Ely's Cream Balm. This pleasant, harmless, antiseptic, cleansing, Balm quickly heals the sore membranes and restores the sense of taste and smell. It will surely relieve even the worst case of catarrh.

Get a 50 cent bottle from your druggist, use it according to directions, and cold in the head, catarrh, catarrhal headache, head noises and sneezing will all go. More than this, the Balm will strengthen the sensitive membranes, so that you can resist and throw off colds. Quick relief from catarrhal misery awaits you at any drug stores. A 50 cent bottle of Ely's Cream Balm is generally more than sufficient for even a chronic case of catarrh or hay fever. It is perfectly harmless.

ROOSEVELT'S HAT IS SUBJECT OF DEBATE

The Franklin club this evening will debate the question, "Resolved, that Theodore Roosevelt should remove his hat from the ring." Professor R. H. Butler, who will lead the discussion for the affirmative, will be assisted by Professors Harry Spence and H. G. Hayden. The negative will be led by Dr. A. R. Kemper, who will be assisted by Otto Bosshard and Paul W. Mahoney. In view of the political importance attached to this question the discussion of this topic will doubtless prove an interesting one.

ROTH AND THORESON HOLD PIN RECORD

By making a score of 1,158 last night, R. Roth and Thoreson broke the record of 1,148, which was held by Yehle and Zoeller, and they now have high score in the two man tournament being held at the Combination alleys. Roth and Thoreson bowled a great game last night as their score shows and they were able to beat out Yehle and Zoeller for high score for the two man teams, by a total of ten pins. Yehle and Zoeller now hold second place with a score of 1,148. Mekvold and Thoreson are third with a mark of 1,111, and Poebling and Zoeller are fourth with a score of 1,109. Much interest is being taken in the tournament and great rivalry for first place in the event is being shown. The Combination and the Peers teams will meet this evening in a post season series to decide the ownership of third place as both these teams are tied for that place. A good game is certain to follow as the teams appear to be evenly matched.

HOLMEN WOMAN DIES IN DAKOTA

Word has been received in the city that Mrs. Renard Van Loon, formerly of Holmen, died suddenly at Granville, N. D., Tuesday morning at 2 o'clock.

Mrs. VanLoon, who was 32 years old, was born in Holmen, Wis., and she lived there until nine years ago when she moved to Dakota and she has resided there since that time. She was well known and popular in Holmen.

She is survived by her mother, Mrs. William Dougherty of Holmen, three brothers, Barney and James Dougherty of Holmen, and William Dougherty of Miles City, Mont., two sisters, Mrs. Olaf Skoy and Mrs. Heath of Holmen, and six children who live in Granville, N. D.

The body arrived in La Crosse on the C. B. & Q. railroad at noon today. The funeral will be held tomorrow morning at 9 o'clock from the St. James church with Rev. Murphy officiating at the services.

FARNAM REMODELS HIS BARBER SHOP

Frank Farnam is remodeling his barber shop on Mill street and he plans to make it one of the most up to date shops in the city after all the repairs have been made. The walls are to be papered and the ceiling done in brown. It is also planned to put linoleum on the floor and a place will be provided for a shoe shining parlor. A partition is to divide the shop from the rear of the building. The repairing work was started this morning and the old paper is now being scraped from the walls.

WISCONSIN NEWS

INGRAM TO RUN FOR CONGRESS

MENOMONIE, Wis., March 28.—The Dunn County News this afternoon carries the announcement of the candidacy of Speaker Charles A. Ingram, Durand, of the Wisconsin assembly, for the republican nomination for congress from the Tenth district. It has been known for some time that the speaker entertained congressional ambitions, and his candidacy is to some not unexpected. He will oppose Secretary of States James A. Frear of Hudson, and Assemblyman Julius C. Gilbertson of Eau Claire, both of whom have been in the field for the nomination for a number of months and have done considerable campaigning through the medium of literary bureaus.

Speaker Ingram has drafted a progressive platform of wide scope and plain statement.

It is understood that Speaker Ingram plans to make a thorough and unceasing campaign through all parts of his district between now and the primaries.

PEA PACKERS WANT CHANGE OF LAW

MADISON, Wis., March 28.—The pea packing interests in Wisconsin will have to look to the 1913 legislature for redress from the present exactions of the women's labor law. A committee conferred yesterday with members of the state industrial commission relative to concessions in the enforcement of the law limiting the hours of labor for women and girls to ten in the daytime and eight at night, or fifty-five hours a week. It was contended that in the height of the pea canning season the incoming stock must be handled with great dispatch to save it from spoiling, and unless longer hours for the female labor are allowed the packers are liable to stand large financial loss. The commission informed the packing representatives that it was powerless to change the law or to relent in its rigid enforcement, and that their only recourse is in the legislature.

Glorious News

comes from Dr. J. T. Curtiss, Dwight, Kan. He writes: "I not only have cured bad cases of eczema in my patients with Electric Bitters, but also cured myself by them of the same disease. I feel sure they will benefit any case of eczema." This shows what thousands have proved, that Electric Bitters is a most effective blood purifier. Its an excellent remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Price 50 cts. Satisfaction guaranteed by O. T. Erhart.

LENROOT SPEAKS FOR LA FOLLETTE

ELKHORN, Wis., March 28.—Irving L. Lenroot, speaking here on Tuesday for the candidacy of La Follette for president, said: "I ask you to compare the records of President Taft and La Follette. What has been accomplished under his leadership in Wisconsin is familiar to you all."

"What has been accomplished by him in the United States senate is also familiar to every citizen of Wisconsin. Some say that La Follette is radical. He is the most conservative force in politics today."

KILBANE WATCHES ELIMINATION BOUTS

NEW YORK, March 28.—Three featherweight fighters, Young Wagner, Patsy Kline and Eddie O'Keefe, today are temporarily eliminated from the race for championship honors. Johnny Kilbane, who holds the title in that class ordered a ringside seat last night at the Empire Athletic club last night and saw Johnny Dundee and Joe Coster win their respective battles. Kilbane complimented Dundee on his showing.

USE POPULARITY TO WIN FOR TAFT

MADISON, Wis., March 28.—In a statement issued on Wednesday, Governor McGovern, as a La Follette candidate for delegate at large to the national republican convention declares that E. L. Philipp, manager of the Taft campaign in Wisconsin, hopes to have Taft candidates elected on the strength of their personal popularity instead of on the strength of the principles they represent. "Mr. Philipp," says the governor, "has no expectation whatever of electing any Taft delegates in Wisconsin in an open, frank contest."

"What he hopes for rather is the possibility of electing some well known standpat candidate on the score of his personal popularity if only the fact can be concealed that he is running as a Taft delegate."

Danderine

Stops Falling Hair and Destroys Dandruff

Makes the Hair Grow Long, Heavy and Luxuriant and We Can Quickly Prove It

If You Wish to Double the Beauty of Your Hair at Once, Just Get a 25 Cent Bottle and Try This

Surely try a Danderine Hair Cleanse if you wish to immediately double the beauty of your hair with little trouble and at a cost not worth mentioning—just moisten a cloth with a little Danderine and draw it carefully through your hair, taking one small strand at a time, this will cleanse the hair of dust, dirt or any excessive oil. In a few moments you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance, the beauty and shimmer of true hair health.

Besides beautifying the hair, one application of Danderine dissolves every particle of Dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. It's exhilarating, stimulating and life-producing properties cause the hair to grow abundantly long, strong and beautiful. It at once imparts a sparkling brilliancy and velvety softness to the hair, and a few weeks' use will cause new hair to sprout all over the scalp. Use it every day for a short time, after which two or three times a week will be sufficient to complete whatever growth you desire.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.

BEAUTIFUL HAIR AT SMALL COST

A Simple Remedy Beautifies the Hair, Cures Dandruff; Stops Falling Hair

What a pity it is to see so many people with thin, wispy hair, faded or streaked with gray, and realize that most of these people might have soft, glossy, abundant hair of beautiful color and lustre if they would but use the proper treatment. There is no necessity for gray hair under sixty-five years of age, and there is no excuse for anyone, young or old, having thin, straggling hair, either full of dandruff or heavy and rank smelling with excessive oil.

You can bring back the natural color of your hair in a few days and forever rid yourself of any dandruff and loose hairs, and make your hair grow strong and beautiful by using Wyeth's Sage and Sulphur Hair Remedy. For generations common garden Sage has been used for restoring and preserving the color of the hair; and Sulphur is recognized by scalp specialists as being excellent for treatment of hair and scalp troubles.

If you are troubled with dandruff or itching scalp, or if your hair is losing its color or coming out, get a fifty cent bottle of Wyeth's Sage and Sulphur from your druggist, and notice the improvement in the appearance of your hair after a few days' treatment. Special Agent, O. T. Erhart, 518 Main street.

MILWAUKEE FIGHT GROWS HOT TODAY

Socialists and Non-Partisans Start to End Campaign with Tornado Fury

MILWAUKEE, Wis., March 28.—With but five days intervening before the people vote in the municipal elections which will determine the defeat or victory of the socialist city administration with Mayor Emil Seidel, opposed by Dr. G. A. Bading, the non-partisan candidate for mayor, the hottest campaign in the city's history approached the boiling stage today.

With announcement of campaign plans both sides predict victory in statements issued today.

Two congressmen are leading the campaigns at the finish, Victor Berger, the first socialist ever selected to congress, and Congressman William J. Cary.

STEEL TRUST GETS LOAN FROM MORGAN

NEW YORK, March 28.—The steel trust has borrowed \$30,500,000 from J. P. Morgan & Co., to be used in extending its plants and increasing its working capacity. The loan was made on 5.1 per cent bonds including \$15,000,000 secured on the Indiana steel plant at Gary, Ind., \$10,000,000 on the Lorain steel plant at Lorain, Ohio, and \$5,500,000 debentures of the Illinois Steel company.

In the official explanation of the transaction it is stated that \$20,000,000 will be spent for extensions of property generally and the remainder used for working capacity and to keep the cash on hand up to the amount shown at the beginning of the calendar year. This money is raised in this way, it is explained, instead of by the former method of appropriating it from the net earnings.

FATE OF PRIMARY BILL IN BALANCE

SPRINGFIELD, Ill., March 28.—The fate of the presidential preference primary bill for Illinois hangs on the attendance of members of the house. The senate primary election committee today decided to report a presidential preference bill with the congressional district as the unit and named a sub-committee to draft it. The bill will be presented when the senate convenes at 3 o'clock, read a second time and as soon as the next legislative day begins the measure will be passed. The house organized today with 99 present—three less than the necessary two-thirds vote to pass an emergency measure—and not all of the members present are for presidential primaries in any form.

DEMOCRATIC CAUCUS

WASHINGTON, March 28.—A caucus of the house democrats to consider appropriations for more battle-ships and a public buildings "pork barrel" was held last night. The naval committee will ask money for one super-dreadnaught, a cruiser and auxiliary vessels. The public buildings committee threatens to bring a "pork barrel" measure if the caucus votes favorably upon the battleship program.

SENATOR TAYLOR ILL

WASHINGTON, March 28.—Senator L. Taylor of Tennessee—"Fiddling Bob"—is near death at his home in this city. His colleagues learned this afternoon that the Tennesseean today suddenly suffered a relapse.

THINK THIS OVER

This Offer Should Gain the Confidence of the Most Skeptical

We pay for all the medicine used during the trial, if our remedy fails to completely relieve you of constipation. We take all the risk. You are not obligated to us in any way whatever, if you accept our offer. That's a mighty broad statement, but we mean every word of it. Could anything be more fair for you?

A most scientific, common-sense treatment is Rexall Orderlies, which are eaten like candy. Their active principle is a recent scientific discovery that is odorless, colorless, and tasteless; very pronounced, gentle, and pleasant in action, and particularly agreeable in every way. This ingredient does not cause diarrhoea, nausea, flatulence, griping, or other inconvenience. Rexall Orderlies are particularly good for children, aged and delicate persons.

If you suffer from chronic or habitual constipation, or the associate or dependent chronic ailments, we urge you to try Rexall Orderlies at our risk. Remember, you can get them in La Crosse only at our store. 12 tablets, 10 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Sold only at our store—The Rexall Store, O. T. Erhart.

YOU WILL WONDER WHAT BECAME OF ALL THAT STOMACH DISTRESS

If your stomach is sick, sour, assy and upset now you can surely get relief in five minutes.

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; your head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Diapepsin and in five minutes you truly will wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

PRESCRIPTION SCIENCE

Is the art of being able to judge quality of drugs and chemicals used, to know how they act in combination, to have a knowledge of doses to be able to combine them correctly and in the proper order. These are the important points—there are many more.

We pride ourselves on the way in which we compound prescriptions. Our methods are such that every prescription bearing our label may be relied on to be absolutely right in every particular.

WILSON MEN SAY HE IS THE CHOICE

Claim Nhey Will Have 800 Delegates at Baltimore; Announce Are Solid in Pennsylvania

WASHINGTON, March 28.—That Woodrow Wilson will have approximately 800 delegates when the democratic national convention assembles in Baltimore, June 25th, and that he will be nominated on the first ballot was the claim of the campaign managers of the New Jersey executive at the Munsey building quarters today. There will be 1,094 delegates in the convention and 730 will be necessary for a choice under the two-thirds rule.

In making this claim the Wilson people did not enumerate states, but they pointed out that in less than a month the Pennsylvania primaries would elect more Wilson delegates than are now claimed at the present time by all the other candidates combined. Primaries in Pennsylvania are to be held on April 13th, and although delegate candidates have been announced in every district in the state, not a candidate for delegate has offered himself in opposition Governor Woodrow Wilson. The sentiment in Pennsylvania is well-nigh unanimous for Governor Wilson and there is no doubt but that he will have the 76 delegates to be chose to the Baltimore convention.

WILL MEAT PRICES GO UP AGAIN?

Many La Crosse people do not care if meat prices are up or down, because they have found that "Minnesota" macaroni and spaghetti, with their delicious nut-like flavor, take the place of meat very largely and are more easily digested.

Good macaroni and spaghetti are four times as nutritious as beef-steak and they are the best and most nourishing foods known. They can be easily prepared in many appetizing ways and are suitable for the daintiest luncheon as well as the heartiest feast.

But if you want that rich, nut-like flavor be sure and get the delicious "Minnesota" brand macaroni or spaghetti—made from the finest Northern Durum wheat, with all the nourishing Gluten left in. It is easily digested and never gets soggy. All good La Crosse grocers sell it.

BUILDERS TO ORGANIZE

CONTRACTORS, ARCHITECTS,
BUILDERS AND MATERIAL MEN
WILL MEET TONIGHT TO
ORGANIZE EXCHANGE

Contractors, architects, builders
and material men will meet at Lin-

for the purpose of organizing a
Builders' Exchange. More than fifty
prominent contractors and material
men have already expressed their de-
sire to join the new organization and
it is expected that several more will
add their names to the list in the
near future.

Advocates of the Exchange plan
declare that an organization of this
kind would be of great benefit to the
builders of La Crosse. They also say
that it would mean a great saving to
the man or company who has con-
tracts to let. An exchange in La
Crosse would have a territory 250
miles in radius to draw from, being
the only city between Milwaukee and
the Twin Cities with an organization
the purpose of arousing interest in
the project.

COUNTY BOARD FOR RAWLINSON

has presided over this board at its
several sessions.

"Therefore, be it resolved, that a
vote of thanks be, and hereby is, ex-
tended to him for the manner in
which he has performed his duties as
chairman of this board."

Interviewed today, Mr. Rawlinson
said:

"It was certainly a flattering en-
dorsement. It makes one feel cheer-
ful to receive such an evidence of
confidence on the part of men you
have been on intimate terms with
for so long. My relations with the
members of the board have been
among my most pleasant experiences,
both from a business and social
standpoint."

"While I have from time to time
during the past few months been urged
by various supervisors to become a
candidate at the next election, the
unanimous endorsement of the board
gave me yesterday was more than I
felt I had reason to expect. I have
only to say that I deeply appreciate it."

Will Drag Roads

An appropriation of \$500 was
made at the meeting of the county
board yesterday afternoon for the
purpose of adding this to the sum of
\$500 already appropriated for road
dragging.

The following reports of the road
and bridge committee were sub-
mitted and adopted: Letting of contract
for the erection of an ice brake
above Hunter's bridge to the Western
Construction company for \$1-
100; endorsement of petition for road
and bridge improvement in the town
of Farmington and the town of
Campbell; and the report of the com-
mittee on the change of the prospec-
tive state highway.

The report of the finance commit-
tee recommending the passage of a
resolution providing for the conver-
sion of \$1,300 from the general fund
to the highway fund, was unanimously
adopted.

McGilvray Matter Tabled

The resolution of Supervisor W.
D. Sandman asking that an approp-
iation of \$1,000 be made to be used
on the improvement of the road lead-
ing to the McGilvray bridge was
laid on the table by a vote of 24
to 12.

A resolution to the effect that the
chairman appoint a committee of
four of which he and the county
clerk would be members was carried.
The committee selected is as fol-
lows: R. W. Davis, Charles Rawlin-
son, Oscar Hulberg and T. B. Law-
rence. The committee will confer
with the Burns township authorities
in regard to the building of certain
bridges.

Doubtful About the Joke.

My daughter had tried to inculcate
courage in her two-year-old boy by
telling him when any accident befall
him that "it was only a joke." One
night a tornado struck the neighbor-

around them and they expected mo-
mentarily to be carried away he crept
up to his mother and, pulling her
dress, said, "Mamma, is this just a
joke?"—Exchange.

ed to, but they are afraid that if they
did they would be put to work."—

NO DISORDER IN CITY LAST NIGHT

Rock Island Quiet, Patrol-
led by Troops; Will Keep
Under Martial Law
Some Time

ROCK ISLAND, Ill., March 28.—
Martial law will continue in effect in
Rock Island until there is no longer
any possibility of renewed rioting.

No political mass meetings will
be permitted until after the primary
election, April 9.

Saloons must remain closed until
April 9.

At least a portion of the troops
now in charge of this city will con-
tinue here until after the election.

Orders to this effect were issued
by Sheriff Bruner and Adjutant Gen.
Dickson today, following a lengthy
conference by these officials with
Mayor Schriver.

The city was quiet last night and
only half a dozen arrests were made.
These were nearly all cases of youths
who shouted and jeered at the sol-
diers or who refused to "move on."

Mayor Schriver's home was guard-
ed last night by a detail of ten mil-
itiamen and several detectives. This
precaution was taken in view of the
threats circulated yesterday that the
city hall and the mayor's residence
would be dynamited.

Mayor Schriver in a statement is-
sued today declares that all the trou-
ble has resulted from his fight on the
lawless element and his determina-
tion to "clean up the town, close the
saloons at night and on Sunday and
put wine-room and chop suey joints
out of business." Schriver declares
that his political opponents advised
the elements to whom he was oppos-
ed to take matters into their own
hands.

delegates had preferred the designa-
tion "insurgent republicans."

"They undoubtedly had the right
to choose this description if they
wished. They might also have select-
ed the words 'progressive republican.'"
But the first phrase has been in
such limited use in Wisconsin and
the latter one has been claimed so
often by persons not entitled to it
that in a contest between Taft and
La Follette it is better, because
clearer, to designate each candidate
as a 'Taft delegate' or a 'La Follette

"In this way the average voter will
more easily understand the nature of
the issue and a more intelligent ex-
pression of public sentiment will be
recorded."

BIG NOISE AT THE HIGH SCHOOL

Forensic Wind Disturbs Peace of Various Rooms After Hours; Orators Practicing

PREPARING FOR CONTEST

Inter-Society Meet This Week; Inter-School Meet Stirs Ambition of Speakers

A person walking in the neighborhood of the high school before or after the school hours may hear a voluminous noise or shouting coming from the various rooms. Upon investigation he will find it to be the high school orators and declaimers practicing their selections.

The oratorical and declamatory season for the high schools of the state begins directly after Easter and lasts about two months. As a rule the boys take up the oratorical work while the girls engage in the declamatory work. Miss Dunn and Mr. Leach who have charge of the forensic work are busily engaged in coaching the different "Rufus Choates" and "Patrick Henrys" and hope to develop some good speakers out of the wealth of material they are working with. Some of the students are working with outside teachers owing to the fact that the teachers are now overcrowded.

Many of last year's declaimers are again taking up this work chief among them being, Elsie Hallik, Ruth Boynton, Stella Sheely and Janet Anderson. There are many new students out for this work and many promise to do even better than the veterans.

Out of last year's orators, Guy Jolivet, Russell Webb, Fred Reimers, Ray Mable, Will Wagner and Glen Hallik are all back again; and with Arthur Euler and Claude Rupp besides several other new ones it may be seen that the high school will be well represented in this line of work this year. The first named boys have all had considerable experience at this sort of work and with the intersociety oratorical contest coming off within a week, ought to be in very good condition for the district contest between Sparta, Viroqua and La Crosse which comes some weeks later.

On the whole the outlook for a very successful season in forensic work at the high school is the best that has been for several years.

FARMERS OPPOSE THE SANATORIUM

Propose a Campaign of Education in Place of Tuberculosis Hospital

CALL THE PLAN EXPENSIVE

Urge Preventative Rather than Curative Methods in Handling White Plague

To the Voters and Taxpayers of La Crosse County:

On Tuesday, April 2nd next, the voters of this county will be permitted to approve or disapprove of the establishing of a tuberculosis sanatorium at the expense of the county.

If the vote cast upon this question is sufficiently decisive and representative, the decision on the part of the voters will be undisputedly final. It may be either for or against the establishing of a sanatorium. Hence an intelligent vote is desirable and ought to be cast.

This can only be the case when all facts bearing upon the question for consideration are in some manner submitted for study to the voters.

The question of having or not having, at this time or any other time, a sanatorium built and maintained at the expense of the county deserves careful, VERY CAREFUL consideration.

Thus far the public has heard only through the columns of the daily press the appeals and arguments of those who favor the establishing of a tuberculosis sanatorium.

Those favoring the Sanatorium have formed an organization for the purpose of making a systematic and aggressive campaign. They have financial aid promised from a similar organization but state wide to the extent of 50 per cent of the amount expended locally for such purpose, if current information is reliable on that point and we have all reasons to believe it is.

It is to be regretted indeed to have a purely local campaign question financed from outside sources at this late day in the state of Wisconsin.

In behalf of equity and good morals it has been found necessary to enact a statute in this state forbidding outside financial aid to any purely local candidate or candidates. The morals in this purely local sanatorium question are no less sacred than in the case of a candidate and ought to be respected.

Those of us who differ and oppose the establishing of a tuberculosis sanatorium, "bear in mind" do not differ as to results to be attained but only as to methods to attain these results. "To KEEP well is better than to get well," is our slogan. Can there be any better?

"Be sure you are right, then go ahead," is as good advice today as when first spoken and in no case can apply with more force than in the consideration of this sanatorium proposition of today. The difference between those who favor the erection of a sanatorium as proposed and those of us who oppose, is fundamental.

Those favoring, seem to believe in, and submit foremost a curative method to GET the desired results; those opposed, believe foremost in a preventive method to RETAIN the desired results, believing that tuberculosis in common with most diseases of the human race is rather more a result than a cause.

For a temporary and expensive relief remove the "RESULT" but a sanatorium in this case for tuberculosis only. For a permanent relief remove the CAUSE "Educate" and meet all ailments alike.

This can be done in and out of school, from the pulpit, from the lecture platform, and in no small degree through the columns of the press.

Insofar as this campaign for a sanatorium meets the above educational requirements, it meets our approval and we hope the education may continue. We are not even adverse to giving financial aid in a modest way within the provisions of law for such educational work.

Looking at this question from whatever angle we may, is it not clearly evident that our main efforts should at all times be directed to a preventive rather than a curative policy for the sake of most efficient and economical results, no small factor in these days of large and burdensome taxes? Who is it that can demonstrate that such policy is not more desirable as against the policy of the proposed sanatorium which singles out one specific ailment only, not for the purpose primarily of curing the victim, but more for the purpose "in fact entirely so," of segregating the victim to prevent as is claimed further contamination. To us it seems like shutting the barn door after the horse got out. In our daily life we cannot avoid getting into contact with contagion in some form or another varying possibly only in degree whatever may be our occupation. We inhale it with the air we breathe, we eat it with the food we eat, we drink it with our drinks, it follows us like our shadow, but if we are healthy, live in well ventilated houses, today lacking in many, partake freely of sunshine and fresh air, nature's best remedies available to all, eat proper and nourishing food, that done, there need be no fear that contagion may lodge in our systems, tuberculosis or any other. Thus with the one effort fortify all ailments to the extent that human effort can succeed. At the best the results to be attained with a tuberculosis sanatorium as proposed for this county are a matter of considerable doubt, conceded even by

some of its most ardent supporters in public addresses.

Why then adopt the most expensive plan first as a matter of experiment? No one would do so in private affairs? Why adopt a less business-like method because it is a public affair? Just such indifference help swell our tax burdens.

It is within the memory of the present generation when tuberculosis was considered incurable in any of its stages. Today it can always be prevented. Today always in its earlier stages and in many instances in its secondary stages, it can be cured. It is considered foolish, not to say cowardly, to avoid a consumptive. No adult person need fear a consumptive nor fear to live in the same room provided both are careful and clean.

Such is the advice professional men give us and they also say further that NO MEDICINE THAT WILL CURE CONSUMPTION HAS YET BEEN DISCOVERED. Simple is it not, but positive! By persistent effort and research work science has arrived at a point unaided by any such sanatoriums as proposed for this county in the referendum now for consideration where it can and does announce and successfully demonstrate to the world that the heretofore so-believed incurable consumptive is hereafter to be a curable consumptive.

Statistics are available thus far that go to show that the death rate due to tuberculosis within the last decade has diminished perceptibly due in the main to such research work. With only meager and spasmodic efforts made in the past the best that is possible with anything new, remarkable achievements have been made. What will be the result with general efforts as are now possible for the future? Has not the future a bright prospect? In view of the foregoing facts, none of which can be successfully disputed, what remains to justify the incurring of the expense necessary for the erection and maintenance of such a sanatorium?

It is the custom of some in discussing the sanatorium question to submit and drill with considerable stress by way of comparisons, upon the fact that the government has seen fit to establish departments for the prevention and spreading of tuberculosis and other diseases among domestic animals with the inference that the government is taking better care for the prevention of the animal life than that of the human life. How absurd even to think that, more so to speak it. Such an inference is an unfair and wrong interpretation absolutely.

It is a fact that such precautions are taken not for the purpose primarily of protecting and preserving animal life but for the purpose ultimately of protecting and preserving human life and welfare and for no other purpose. Who is it that can demonstrate otherwise? We cannot believe that those who make these statements themselves believe them correct. We consider them more fair-minded than such an expression would indicate.

We now come to one other phase of this question equally worthy of careful study. One of the most ardent supporters of the sanatorium proposition admitted in a private interview that he would not have any member of rational mind of his family committed to any sanatorium without the free consent of such member. Of what value then is such a sanatorium when those who want it built will not use it and those who ought to use it cannot be compelled to use it, and never can be compelled, unless such persons are

public charges? Would any of you who may chance to read this article do otherwise and commit a member of your family to such a sanatorium against their free wish? We believe not, nor do we believe that there is any one hardhearted enough to do so. Bear in mind we are now considering incurables, none other can be legally committed to the proposed sanatorium. Just stop and think for a moment what a feeling must overcome a tuberculosis victim when compelled to leave the home and enter such a sanatorium, confronted with the fact of being incurable although hopeful up to then, cognizant of the fact of being no longer wanted in the home, turned out of home to die. It may be the builder of the home, the one who planned and made possible all the conveniences and accommodations a home can be made to provide, whose advice was always sought, and now in the hour of distress he comes face to face with the fact that the home so well supplied and provided for cannot be used when he is most in need of same, but must be left because he is overtaken by misfortune. Through some neglect in the observations of the laws of nature, tuberculosis has been contracted. Already punished for such violation, the aid of law is to be invoked to mete out further punishment to such victim and he is to be committed to a sanatorium, not because it is possible others in the home will be infected but because it is possible others in the home may be infected. No mitigating circumstances to be permitted consideration. No deathbed request seeking peace at home to be entertained. Such will be the results aimed at ultimately by the aid of additional legislation should the voters vote for a sanatorium.

In the foregoing we submit some of our reasons for opposing the erection of a sanatorium for tuberculosis at the expense of the county. We ask for them careful and unbiased consideration and that you vote as your conscience directs on Tuesday, April 2nd, next. We shall vote against the erection of a sanatorium as proposed.

In conclusion we wish to call attention to the fact that the estimated annual cost to the county of maintaining such a sanatorium, as proposed, submitted by the friends of the sanatorium, is approximately \$10,000.00. Just about what it costs annually for the salaries to pay our elected county officials. This bear in mind is rather a minimum estimate considering the source. What will be the maximum to the county? The cost of erection is additional. It is less than three years since the county was asked by the state board of Control to enlarge the insane asylum at West Salem to the extent of an estimated cost of \$78,000.00 with the promise on the part of the then state board of control that when such addition was completed the state would transfer a sufficient number of patients to fill the extra room. The county board unanimously decided to build the addition and bonded the county for \$78,000.00. It has been completed for some time at a cost of about twenty per cent above the estimate. The state has as yet failed to furnish the patients promised. We have as a result an investment on our hands of no present value to us—at its best an unnecessary burden to the taxpayer for some time to come. What have we to guarantee that the proposed sanatorium will not result likewise and continue so? Consider further, whether or not it is desirable to have

and continue to maintain conditions that compel people to neglect the health, to labor under conditions injurious to their health, to labor beyond their strength and for wages insufficient to provide the necessary nourishing food for themselves and families so that their systems become easily susceptible to tuberculosis. The immediate foregoing conditions, the friends of the sanatorium claim, justify or compel the violations of the laws of nature. If true, a deplorable state of affairs, indeed. Would it not be prudent to remedy those conditions rather than to build a sanatorium for the purpose of taking care of the results of such conditions? For if tuberculosis will not result other ailments will result without fail. It cannot be otherwise. Now which do you prefer?

Think it over and as a result of your deliberations we believe, without fail, will be the casting of your vote against the erection of a sanatorium.

The Quickest, Simplest Cough Cure

Essentially and Cheaply Made at Home. Saves You \$2.

This recipe makes a pint of cough syrup—enough to last a family a long time. You couldn't buy as much or as good cough syrup for \$2.50.

Simple as it is, it gives almost instant relief and usually stops the most obstinate cough in 24 hours. This is partly due to the fact that it is slightly laxative, stimulates the appetite and has an excellent tonic effect. It is pleasant to take—children like it. An excellent remedy, too, for whooping cough, croup, sore lungs, asthma, throat troubles, etc.

Mix one pint of granulated sugar with 1/2 pint of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents' worth) in a pint bottle, and add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours.

Pinex is one of the oldest and best known remedial agents for the throat membranes. Pinex is the most valuable concentrated compound of Norway white pine extract, and is rich in guaiacol and all the other natural healing elements. Other preparations will not work in this formula.

The prompt results from this recipe have endeared it to thousands of housewives in the United States and Canada, which explains why the plan has been imitated often, but never successfully.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

HELD FOR BRIBERY

ANNAPOLIS, Md., March 28.—John F. O'Malley, state auditor-elect was arrested today on the bribery charge recently brought by Delegate W. R. Smallwood that O'Malley offered him \$2,500 for his vote on the local option bill. O'Malley was released on \$10,000 bail for his hearing.

PIANO MEN JAILED

CHICAGO, March 28.—Judge Chickham Scanlon yesterday issued a commitment in the cases of Christ and Charles Steger, millionaire piano manufacturers and the three business associates, sentenced to serve from three to seven days in jail for contempt in violating an injunction order.

This action enables the defendants to take an immediate appeal to the state supreme court. Meanwhile all have been released under bond. The injunction was issued to prevent them from using a certain trade mark on pianos.

THE HEART

If the blood is poor and filled with the poisons from diseased kidneys or inactive liver, the heart is not only starved but poisoned as well. There are many conditions due to impure blood—such as dropsy, fainting spells, nervous debility or the many scrofulous conditions, ulcers, "fever-sores," white swellings, etc. All can be overcome and cured by

Dr. Pierce's Golden Medical Discovery

This supplies pure blood—by aiding digestion, increasing assimilation and imparting tone to the whole circulatory system. It is a heart tonic and a great deal more, having an alternative action on the liver and kidneys, it helps to eliminate the poisons from the blood.

To enrich the blood and increase the red blood corpuscles, thereby feeding the nerves on rich red blood and doing away with nervous irritability, take Dr. Pierce's Golden Medical Discovery and do not permit a dishonest dealer to insult your intelligence with the "just as good kind." The "Discovery" has 40 years of cures behind it and contains no alcohol or narcotics. Ingredients plainly printed on wrapper.

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of wrapping and mailing only. Send 31 one-cent stamps for the French cloth-bound book. Address: Dr. R. V. Pierce, Buffalo, N. Y.

Success with Paper-Bag Cookery Depends Absolutely Upon the Use of the Proper Bag — Ordinary Paper Bags Will Not Do. : : : : :

They are sure to make the food taste of paper. The special paper bags required are the Union Cookery Bags—the only bags made in America especially for the Soyer method of cooking. Do not attempt to use any other. Inexpensive and marvelously simple. This new method of cooking in fresh germ-proof Union Cookery Bags gives to food a new deliciousness, prevents shrinkage and loss of flavors, saves a vast amount of time, labor and expense. Things cook in less time and cook perfectly—no greasy pans to wash, no smell of cooking in the house.

UNION COOKERY BAGS

Prepare food as usual and put into a bag of proper size. Close the end tight and slip bag into oven. Needs no further care until the necessary time for cooking has elapsed, then slip a plate under bag to remove it from the oven, slit open the top of the bag with a knife, and the food will be found more deliciously cooked than is possible in any other way. Everything except soups and beverages may be cooked in Union Cookery Bags. They are made of guaranteed pure materials, odorless and tasteless, moistureproof, germ-proof, not injured by heat. Airtight, they retain all the richness, flavor and aroma of the food. Self-basting, self-browning. Made in all needed sizes. Sold in sealed, sanitary packages. Liberal quantity in package.

HIGH BASEBALL PROSPECTS GOOD

Open Air Work to Follow Gymnasium Practice, Beginning Next Tuesday

The prospects for a winning baseball team at the high school this year are exceptionally good. The baseball candidates have been working out in the gymnasium for the last few weeks and now have all the ainks and soreness out of their arms and are ready for outdoor work which will in all probability be started on Tuesday. Prof. Phillip Elliot has been appointed coach for the season and will take charge of the men when the outside work starts. There is a large squad of men now trying out for the team.

Manager Peterson has been receiving contracts from the different high schools he has written to for games and has scheduled the first game with Bangor on April 13th. He has also received word from the West Division High school of Minneapolis which team is making a tour of southern Minnesota during the latter part of May. They desire to play here while on the trip and in all probability they will play here on May 25th.

The Oshkosh high school baseball team, champion Wisconsin high school nine last year, has written the manager of the local team for a series of championship games to be played at Oshkosh after school has closed about June 20th. La Crosse is regarded as the logical champion of western part of the state and Oshkosh with the same team that they had last year ought to beat every team in that part of the state. So a series of games between these teams ought to settle the state championship in baseball for high schools.

Wallace Montague has been appointed assistant manager of baseball for this season. This is the first time in the history of the high school that a freshe has been appointed to such a position and although Montague takes care of such a position he has the opportunity to get busy and show that he is made of the stuff that is required for high school managers.

Season tickets will be issued which will be good for all the baseball games played by the high school team this year. There will be at least five games here and maybe more.

HURLEY AND LOCAL BOY IN PRELIMINARY

In addition to the big match of the evening tomorrow, that between Jack Little and Walter Miller, J. P. Moore has arranged for a preliminary bout in which William Hurley of Albany, Ill., and Young Sampson, north side wrestler, will be the principals. These two matches will form one of the greatest wrestling attractions ever seen here and all fans who attend them at the Majestic theater tomorrow will be sure to see the best wrestling which has been witnessed in this city for a long time.

Hurley is a first class wrestler who weighs 140 pounds and he plainly demonstrated his ability when he defeated Young Egan of this city in two straight falls in a short time recently in spite of the fact that the local boy outweighed him by ten pounds. The Albany man has been matched to meet Young Sampson, the fireman wrestler of the north side, whose ability is well known here. In view of the fact that these two men are of almost the same weight and both are clever wrestlers, this bout will undoubtedly prove a great attraction. Those who have seen Hurley and Sampson wrestle are of the opinion that a finish match, such as will be held tomorrow, will be an exceptionally interesting one, as both men are great wrestlers and are capable of putting on a good bout. Mr. Moore has made arrangements to have this match begin at promptly 9:30 o'clock and the Miller-Little match will be started immediately after the completion of the preliminary.

WILL ELECT BALL DIRECTORS TONIGHT

Another meeting of the LaCrosse Baseball club will be held at the court house this evening for the purpose of electing five directors for the coming season. A committee of three was appointed at the last meeting to submit the names of the stockholders who would serve as directors and the report of these men will be received this evening. Tonight's meeting was adjourned from Monday evening.

FIELD AND TRACK MEN TO MEET

A meeting of the track and field candidates of the normal school will soon be held for the purpose of electing a manager and for looking over the material. It is a fact that there is a great deal of first class material in the school which ought to be unearthed and as the basketball season is over interest will be taken in track athletics and the normal is sure of a creditable team in that line this year.

HOUSTON BLANKED BY WHITE HOSE

Callahan's Pill-tossers Beat Buffaloes, 6 to 0; Cubs Have Tussle to Beat Nashville

WACO, Texas, March 28.—Manager Callahan and his White Sox premiers are back here after their mud race in Corsicana yesterday, where they defeated the Houston Buffaloes 6 to 0. Callahan expects his second team in from San Antonio today and the squad will be kept together until Sunday night when the trip north begins. The seconds beat San Antonio 11 to 1.

Cubs to Louisville
NASHVILLE, Tenn., March 28.—The Cubs left for Louisville early today, after a good workout in their exhibition game against the Volunteers here yesterday. Manager Chance expects to give the brigade of recruits their final workouts in the Kentucky town, where the Cubs are scheduled to remain a week. Yesterday's battle resulted in a Cub victory, 6 to 3, after a great uphill fight behind Pitcher Toney.

St. Louis Teams Home
ST. LOUIS, Mo., March 28.—With the Browns arriving in St. Louis from Montgomery late today both local teams will be back home, but work on the local ball lots will be out of the question for Sundays. Before leaving Montgomery Manager Wallace turned Wares and Danzing, outfielders, over to the Southern association team of that city. Riggs was sent back to Houston. Pitcher Bill Stein signed his contract with the Cardinals today and further reduced Bresnahan's list of holdouts.

Martina Fights Tigers
NEW ORLEANS, La., March 28.—Since the Detroit Tigers finished second last season, their performance in the presence of Pitcher Martina of the Pelicans, causes much glee in the Naps camp. The Naps last Sunday pounded Martina for seven hits and five runs, but yesterday the Tigers could not hit him. Davis said today that the wedding out process will begin next week.

Highlanders Won't Move
ATLANT, Ga., March 28.—It practically was decided today that Manager Harry Wolverton would keep his New York Highlanders here for the remainder of the training season. Discouraging weather reports from Cincinnati and other middle west cities where games were scheduled and bad conditions of playing grounds have convinced Wolverton that the team will be in better condition if it remains here.

Brooklyn at Louisville
LOUISVILLE, Ky., March 28.—Owner Grayson of the Colonels has extended the use of his grounds for practice to Colonel Bill Dahlen and his Brooklyn Trolley Dodgers as long as they wish to remain here. The Chicago Cubs were scheduled to play the Colonels today. Dahlen likely will keep his men here for daily workouts for a few days.

SORE AT BOXING

CHICAGO, March 28.—Matt Larkin, the New York fight promoter, enroute to the east from the Pacific coast, displayed considerable "peeve" today before starting for Gotham, over boxing conditions in the Empire state.

"There is too much promoter and not enough of the men who pay hard cash to see the contest," he declared.

World's Champion Welterweight Wrestler Who Will Meet Jack Little of Milwaukee in a Finish Match at the Majestic Theater Tomorrow Evening.

CEMENT AUTOMATIC SEALING BURIAL VAULT

Automatic Sealing Burial Vault, with Lid in Place Showing Its Beautiful Lines and Neat General Appearance.

The longer it remains in the ground the better it gets. Absolutely Water Proof, Vermin Proof and Burglar Proof. Graves with a Cement Vault in it can Never Settle. The wooden rough box, now in use, soon soaks full of water and decays. The steel vault soon corrodes and crumbles in. The jointed cement or brick vault can not be made water proof and are More Expensive than our Automatic Sealing Vault—re-enforced with steel.

Why put an expensive, beautiful casket in a wooden box to water soak and decay within a few months, when for a few dollars more you can place it in a Vault that will preserve it perfectly forever?

Ask your undertaker about the Automatic Sealing Vault, and have him demonstrate the Automatic Seal with Small Sample which he has. You will be well pleased with it and surprised at its low cost.

TWIN CITY MAN WANTS LOCAL BOUT

In a letter to The Tribune this morning, Young Sampson of Minneapolis, Minn., states that he would like to meet any La Crosse wrestler weighing from 125 pounds to 130 pounds in a finish match. At the present time Sampson is in Chicago and he states that in four years no man weighing 125 pounds has defeated him.

Following is Sampson's letter: "Chicago, Ill., March 26, 1912. "544 State Street, "Sporting Editor of La Crosse Tribune, "Dear Sir:

"I would like to get a match with any La Crosse wrestler who weighs from 125 pounds to 130 pounds. In the last four years I have not met defeat at the hands of any 125 pound wrestler and I would like to hear from some La Crosse wrestler of that weight.

"Yours truly,

"YOUNG SAMPSON."

TO HOLD PIN MEET BY WIRE

CLEVELAND, Ohio, March 28.—A bowling tournament conducted by telegraph among eight clubs to determine the intercity championship is scheduled for dates late next month. Athletic clubs of the following cities will participate. New York, Pittsburgh, Cleveland, Milwaukee, St. Louis and Montreal, together with the Illinois Athletic club and the Chicago Athletic club of Chicago.

On the date to be selected, a leased wire will be opened in these various clubs and individual scores by frames will be flashed for posting on each scoreboard.

NORMAL AND "Y" TO MEET AGAIN

For the second time this season the basketball teams of the normal school and the Y. M. C. A. will meet in the normal school gymnasium on Saturday evening. Although the Y quintet defeated the normal team the last time they played, the normals hope to turn the tables this time, but the Y team is just as determined that this shall not be the case.

In spite of the fact that they have not played for some time, the Y five is confident that they will beat the normals by a larger score than they did last time and to accomplish this will be their aim. They have put up a wonderful game all season and they hope to make it two straight victories over the normal school quintet. If the normal school plays the game they are capable of, however, the contest will be an interesting one and the Y five may have trouble in beating them.

The only way to settle the city basketball championship according to the present outlook is for the high school and Y. M. C. A. teams to play a game or a series of games. However, such a series could not be played before next week at the earliest as the highs are at present at the championship tournament at Appleton. Because of the fact that many of the men at the high school will be out for baseball and track after next week it may prove too late for a city series but there is no doubt but that such a series of games would prove an interesting one. Both teams appear to be about evenly matched and a game for the city championship would undoubtedly prove a great contest.

An old toper is satisfied if he can keep his head above water.

FORBES WINS BOUT
BURLINGTON, Wis., March 28.—Harry Forbes won the popular de-

cision over Young Frenchy of Racine in a hard ten round battle here last night.

Vaudeville audiences are quick to insist that one good turn deserves another.
